

TRASH BASH

On Tuesday June 7, 2011 the City of Angels will be conducting a **FREE** pickup of trash at the curb by your house!! Old appliances, furniture, trash, water heaters, junk, etc. will be collected. All loose items must be bound in manageable bundles or containers.

This is a residential pickup and is limited to four cubic yards per residence.

(That is about one large pickup size load)

SEI, the City's franchised waste collection company, will be conducting the trash collection. They will be going through the City **ONE TIME**. If your trash is not at the curb when they come by, they will not come back. Certain items such as appliances may be temporarily left behind. These items will be picked up separately, SEI will not pickup any additional trash with the appliance after the initial pickup. Please help us by doing the following:

- * All trash must be at the curb at 6:00 AM, Tuesday morning, June 7th.
- * Remove or secure refrigerator doors to prevent children from entrapping themselves.
- * Tires, batteries, paint, oil, solvents, insecticides, etc. should be taken to the Fairgrounds at Calaveras County's next Hazardous Waste Collection scheduled pickup.
- * Please keep the sidewalks and streets clear of waste and debris.
- * If your trash has not be collected by 5:00 p.m. on the 7th, call SEI at 795-1532

This is a service of the City of Angels for the benefit of its residents. If you have any questions, please call City Hall at 736-2181
